

## Ontario Online Learning Portal for Students

The Ontario Online Learning Portal for Students is a gateway to information and resources on online learning opportunities and support services from Ontario's public colleges, universities and other training providers.

No matter where they are, students, and potential students, across Ontario can use the Portal to find the information they need on online learning opportunities and get answers to their questions.

The Portal offers:

- **Google-like Search** – Search for information on more than 18,000 courses and 1,000 programs offered online by Ontario's colleges, universities, high schools and literacy and other training providers.
- **Getting Started** – Take a series of quizzes to help you choose the right career path and find out whether or not online learning is right for you.
- **Student Services** – Explore links to a host of student support services available from Ontario's colleges and universities including academic advising, employment, credit transfer, financial assistance, libraries, online tutoring, and prior learning assessments.
- **Online Learning Centres** - Information on 112 online learning centres across Ontario where students can get information on online programs and courses, support with registration, and can use audioconferencing, videoconferencing and web conferencing to take their courses.
- **Success Stories** – Read about students who were able to access online courses through Contact North | Contact Nord and reach their education goals.
- **Mobile Apps** – Download apps for iPhone or Android and find information on online learning no matter where you are.
